CRITICAL ISSUES (critical, high severity): 0

Critical and harmful access for owners, user block ability, Bugs and vulnerabilities that enable theft of funds, lock access to funds without possibility to restore it, or lead to any other loss of funds to be transferred to any party.

HIGH ISSUES (high, medium severity): 0

The owner's privileges, access and permission that cause changes in the contract results and parameters, enable/disable main modules and features, exclude/include specific users.

ERRORS, BUGS AND WARNINGS (medium, low severity): 0

Bugs can negatively affect the usability of a program, errors that can trigger a contract failure, Lack of necessary security precautions, other warnings for owners and users, warning codes that are valid code but the compiler thinks are suspicious.

OPTIMIZATION (low severity): 0

Methods to decrease the cost of transactions in Smart-Contract.

RECOMMENDATIONS (very low severity): 1

Hint and tips to improve contract functionality and trustworthiness.

Conclusion:

In the **GOATOKEN** Smart-Contract were found no vulnerabilities, no backdoors and no scam scripts.

The code was tested with compatible compilers and simulate manually reviewed for all commonly known and specific vulnerabilities.

So **GOATOKEN** Smart-Contract Smart-Contract is safe for use in the Ethereum Smart Chain main network.

RECOMMENDATIONS

Owner privileges (low, low severity):

The owner has access to the functions:

- excludeFromReward
- includeInReward
- excludeFromFee
- includeInFee
- setTaxFeePercent
- setLiquidityFeePercent
- setMaxTxPercent
- setSwapAndLiquifyEnabled

the owner has the permission to exclude/include addresses from rewards/fees. Enable/disable the swap system. change the fees to max 9%. Change the maximum allowed transfer amount.

Solution:

The owner can renounce the ownership and remove the owners' privileges.

Independent Description of the smart-contract functionality

The **GOATTOKEN** Smart-Contract provides the opportunity to hold tokens in your wallet and earn passive income without staking.

- ❖ It is a reflective token that will return a profit to every user that holds the tokens in his wallet.
- ❖ The profit will be made by transactions. In each transaction, 0% to 9% will be reflected as profit to holders and 0% to 9% share will be transferred to the owner wallet.
- ❖ All libraries which were used for calculation and the token in the contract are standard and safe

Token Info (all information based on audit date)

- Total Supply: 100,000,000,000 GOATTOKEN
- Holders: 3 addresses
 - Burn Address: 50%
 - A contract (unknown): 45%
 - Owner: 5%
- Total Transactions: 3
- Name: Goat
- Symbol: GOAT
- Decimals: 9
- Contract: 0x29a6db3101f1219aedbec0730e69687c69987faa

Owner/Deployer Tokens

In the first initial of the token, 100,000,000,000 tokens will be transferred to the owner wallet.

Maximum Transaction Amount

The maximum transaction amount for users is 1,000,000,000 tokens. Some of the addresses specified by the owner are exempt from this rule and are not restricted

Transaction Fee System

The total transaction fee is between 0% to 18%. The owner has the privilege to set fees. The maximum amount for each fee is 9%. Current fees are based on the source code.

- Tax Fee: 0% (max 9%)
- Owner Fee: 9% (max 9%)

The owner has access to change the fees based on the maximum allowed numbers.

Swap and Transfer

If the contract token balance is greater than 600,000,000 tokens.

The tokens will be swapped to ETH and then all ETH will be transferred to the owner wallet.

Disclaimer:

This audit is only to the Smart-Contract code at the specified address.

GOATOKEN:

Haze Security is a 3rd party auditing company who works on audits based on client requests. And as a professional auditing firm, we check on the contract for any vulnerabilities, backdoors, and/or scam scripts.

Therefore:

We are not financial advisors nor do we partner with the contract owners
Operations and website administration is fully on the client's side

We do not have influence over client operations, which can lead to website changes, withdrawal function closes, etc. One always has the option to do this through the contract.

Any concerns about the project themselves need to be raised directly to the project owners and not through Haze Security.

Investors are not in any way obliged, coerced or influenced to invest in projects audited by Haze Security.

We are not responsible for your funds or guarantee you profits.

We highly recommend that investors do their own research and gain crypto experience before investing

To report any scam, malpractices and irregularities, please send a message via Telegram to @Haze013 or @Sara_Solidity for blacklisting.
