| OPTIMIZATION (low severity): | 1 |
| RECOMMENDATIONS (very low severity): | 0 |

High ISSUE

The system used is called ROI and must be considered as HIGH-RISK.

Users principal deposits cannot be withdrawn, users can get dividends and referral commission. Dividends are paid from deposits of other users. Do always invest with proper knowledge and investigation.

Optimization suggestions

Loop on the dynamic variable (low severity).

If the user gets more parallel deposits his withdrawal transaction going to cost more transaction fee because the loop on the dynamic variable is used in the 'withdraw' function.

In case exceeding the GAS limit of the size of the transaction withdraw is not possible.

Note:

This comment is relevant only if a user creates an excessive amount of parallel deposits (more than 100).

Conclusion:

The **BNBPOLICE** Smart-Contract were found no vulnerabilities, no backdoors, and no scam scripts.

The code was tested with compatible compilers and simulated manually reviewed for all commonly known and specific vulnerabilities.

So **BNBPOLICE** Smart-Contract is safe for use in the Binance Smart Chain main network.

Independent description of the smart-contract functionality

The **BNBPOLICE** smart contract provides the opportunity to invest any amount in BNB (from 0.01 BNB) in the contract and get 124% to 300% return on investment between 15 to 30 days if the contract balance has enough funds for payment.

- ❖ All dividends are calculated at the moment of request and available for withdrawal once a day
- ❖ Each subsequent Deposit is kept separately in the contract, to maintain the payment amount for each Deposit.

Contract Owners Fee

Project Fee: 10%

FOUR INVESTMENT PLAN

| Plans | Total Return | Daily Profit | Days | Withdraw |
|-------|--------------|--------------|------|------------|
| 1 | 124.5% | 8.3% | 15 | once a day |
| 2 | 180% | 9% | 20 | once a day |
| 3 | 240% | 9.6% | 25 | once a day |
| 4 | 300% | 10% | 30 | once a day |

- The minimum deposit amount is 0.01 BNB

Withdraw Rules

The contract has rules on the withdraw to protect the project from whales

- Users can only withdraw once a day
- The maximum withdrawable amount in one day is 10 BNB

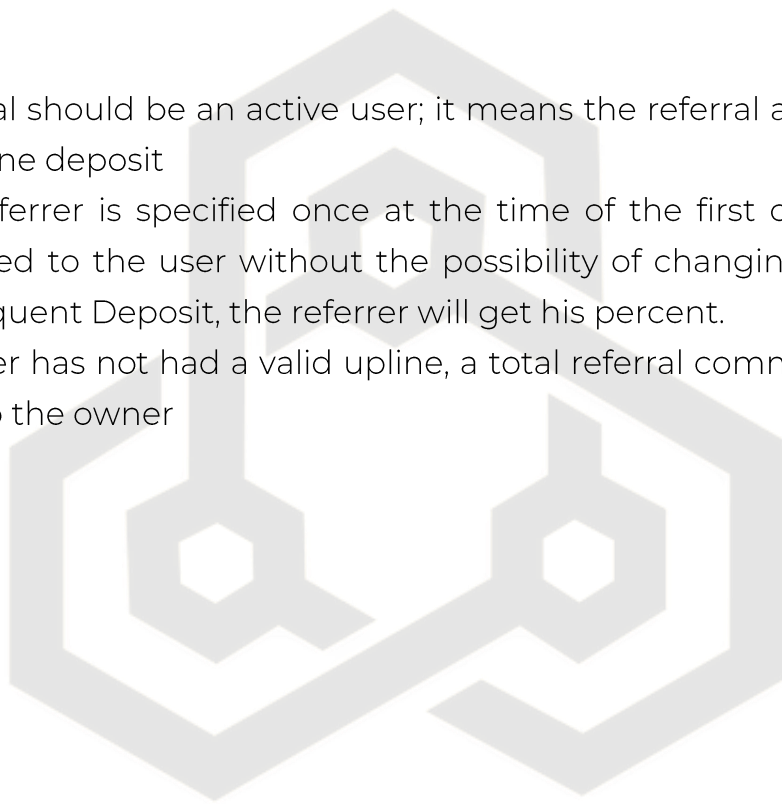

Referral System (Match Bonus)

The contract pays a 10% referral commission over 3 levels

- Level 1: 5%
- Level 2: 3%
- Level 3: 2%

Notes:

- Referral should be an active user; it means the referral address has at least one deposit
- The referrer is specified once at the time of the first deposit and is assigned to the user without the possibility of changing. From each subsequent Deposit, the referrer will get his percent.
- If a user has not had a valid upline, a total referral commission will be sent to the owner

Disclaimer:

This audit is only to the Smart-Contract code at the specified address.

Haze Security is a 3rd party auditing company who works on audits based on client requests. And as a professional auditing firm, we check on the contract for any vulnerabilities, backdoors, and/or scam scripts.

Therefore:

We are not financial advisors nor do we partner with the contract owners
Operations and website administration is fully on the client's side

We do not have influence over client operations, which can lead to website changes, withdrawal function closes, etc. One always has the option to do this through the contract.

Any concerns about the project themselves need to be raised directly to the project owners and not through Haze Security.

Investors are not in any way obliged, coerced or influenced to invest in projects audited by Haze Security.

We are not responsible for your funds or guarantee you profits.

We highly recommend that investors do their own research and gain crypto experience before investing

To report any scam, malpractices and irregularities, please send a message via Telegram to @Haze013 or @Sara_Solidity for blacklisting.
